01 The TCCC-CLS course met the stated learning objectives.					
02 Course presentation and materials enhanced learning and kept me engaged.					
03 The trainer was knowledgeable and well prepared to help me understand and master these skills.					
04 I received adequate attention from my skill station trainer and was given enough time to practice.					
05 The presentation(s) was (were) the right length to deliver TCCC-CLS Course concepts.					
06 The videos provided the right amount of information to learn TCCC-CLS concepts.					
07 The skills and exercises increased my confidence in delivering lifesaving interventions.					
08 I am confident I can apply and perform all of the MARCH PAWS skills appropriately to a casualty in accordance with current TCCC standards.					
09 I had the necessary equipment for skills practice during the course.					
10 I feel strongly that I can assess and document a casualty's mental status using the Alert, Verbal, Pain, Unresponsive (AVPU) method.					
11 I am confident that I can transmit 9-Line MEDEVAC information in the proper sequence (including TACEVAC).					
12 I am confident that I can document all findings and treatments on a DD Form 1380 TCCC Combat Casualty Card in preparation for Evacuation.					
13 The class was organized with a logical progression, and it facilitated my learning and skills acquisition.					
14 Were you offered the opportunity for remediation training in any areas of deficiency, if needed?					
15 Please describe what you feel were the best aspects of this CLS course (youi may use the back to elaborate further):					
16 Please comment on any recommendations you have for future TCCC-CLS training:					
17 Please add any comments that you may have about the course in general:					
18 Will you reference the CLS materials located on the DeployedMedicine.com website in the future? Circle one: Y N					
19 Please write in the name(s) of your trainers:
