

INDIVIDUAL SKILLS ASSESSMENT

MODULE 14: Eye Injuries

DATE: _____

STUDENT NAME: _____

RANK: _____

INSTRUCTOR NAME: _____

ROSTER#:

INSTRUCTION: This Skills Assessment Checklist should be used by a trainer to grade a student's ability to perform the individual SKILLS for the TCCC Combat Medic/Corpsman (TCCC-CMC) Course. A trainer should use this form when performing the optional individual skills assessment associated with completing a skills station. To successfully demonstrate proficiency, the student should "PASS (P)" all the critical tasks (marked as "C") on the checklist.

This checklist may also be used as a teaching tool at the skills station if the trainer chooses to grade students only during the culminating exercise tactical trauma assessment. Grading during the culminating exercise is mandatory for successful course completion, while grading individual skills during the skill stations is optional.

PERFORMANCE STEPS		1 st Attempt		2 nd Attempt	
PENETRATING EYE INJURY		P	F	P	F
1.	Considered body substance isolation.				
2.	Placed the casualty in a comfortable position, one that allowed access to their eyes (head). Removed their headgear, if necessary.				
3.	Examined the eyes for any deformities, contusions, abrasions, penetrating objects, bruising (black eye(s)), lacerations, or swelling.				
4.	Performed a rapid field test of visual acuity.	C			
5.	Covered the casualty's injured eye with a rigid eye shield (not a pressure patch).	C			
6.	Secured the rigid eye shield with tape at a 45-degree angle across the forehead and cheek.	C			
7.	If the casualty was conscious and able to swallow, administered all pills in the Combat Wound Medication Pack (CWMP). If unable to take the oral antibiotic in the CWMP, then administered intravenous or intramuscular antibiotics.	C			
8.	Documented all findings and treatments on a DD Form 1380 TCCC Casualty Card and attached it to the casualty.	C			
Demonstrated TCCC Proficiency: Yes No					
Notes:					

STUDENT NAME: _____

PERFORMANCE STEPS		1 st Attempt		2 nd Attempt	
EYE TRAUMA RAPID FIELD TEST OF VISUAL ACUITY		P	F	P	F
1. Considered body substance isolation.					
2. Had the casualty cover the unaffected eye.		C			
3. At an arm's length, assessed the casualty's ability to: (a) Read something with text on it (that was held up by the medic) (b) Counted fingers (c) Identified hand motion (d) Identified light versus dark <i>NOTE:</i> If casualty is unable to do a, then move on to b, if unable to do b, then move on to c, if unable to do c, then move on to d.		C			
Evaluator must provide student with the appropriate guidance as to what the casualty sees for number 3.					
4. Repeated the procedure for the other eye.					
5. Documented all findings and treatments on a DD Form 1380 TCCC Casualty Card and attached it to the casualty.		C			
Demonstrated TCCC Proficiency: Yes No					
Notes:
