

DEPARTMENT OF THE AIR FORCE
WASHINGTON DC

MEMORANDUM FOR ALMAJCOM/SG
MAJCOM FUNCTIONAL MANAGERS

FROM: HQ USAF/SG
1780 Air Force Pentagon, Rm 4E114
Washington, DC 20330-1780

SUBJECT: Revised timeline of Tactical Combat Casualty Care (TCCC) training for active duty 4N0X1 and 4N1X1 personnel

This memorandum provides updated guidance for the National Association of Emergency Medical Technician (NAEMT) TCCC for Medical Personnel, previously addressed to all active duty 4N0X1 and 4N1X1 personnel in the AF/SG's memo, *Implementation of TCCC training for the Air Force Medical Service*, dated 13 Aug 2019 at attachment 1.

Due to programmatic delays resultant from COVID-19, the suspense for all active duty 4N0X1 and 4N1X1 personnel to complete the current NAEMT-TCCC for Medical Personnel course is extended 12 months from the date of this memorandum with the following stipulation:

- When tasked to deploy, all active duty 4N0X1 and 4N1X1 personnel will complete the NAEMT-TCCC for Medical Personnel course within 12 months before deployment.

Unit medical readiness offices will continue to record TCCC training completion in Medical Readiness Decision Support System (MRDSS).

My point of contact for the AFMS TCCC training is Maj Stephan C. Kesterson, (703) 681-6956, DSN 761-6956 or email at stephan.c.kesterson.mil@mail.mil and for the 4N Career Field Manager is CMSgt Taliah M. Wilkerson, 703-681-8152, DSN 761-8152 or email at taliah.m.wilkerson.mil@mail.mil.
