Medical Visual Language Translator

Language Insurance for Travelers' Health

Imagine suddenly experiencing strange pains or frightening symptoms, or getting injured while traveling abroad. Illness and injury can not only put a damper on your vacation, they can be life-threatening if you can't communicate because you don't speak the local language. The Kwikpoint Medical Translator gives you hundreds of easy-to-understand graphics and icons for medical situations to help you quickly get the care you need.

Includes graphics for communicating:

- Symptom type and duration
- Pain location, type and duration
- Medical conditions
- Dental and specialist needs
- Allergic reactions and toxic ingestions
- Falls, bites and wounds
- Diagnostic and treatment information
- General illness identification, as well as medication dosage and treatment options.
